

Board Certified Cytopathologist

University of Texas Health Science Center at San Antonio

The Department of Pathology School of Medicine at the University of Texas Health Science Center at San Antonio (UTHSCSA) is seeking a Board Certified Cytopathologist with strong diagnostic skills in general pathology and ideally at least three years of independent signout experience in cytopathology. The Department of Pathology trains residents and has fellowships in surgical pathology, cytopathology, hematopathology, and transfusion medicine. Opportunities for clinical and bench research are available with colleagues in Pathology and in other medical school departments, at the NCI-designated Cancer Treatment and Research Center (CTRC), and at the Greehey Children's Cancer Research Center (GCCRI).

The successful candidate must have a MD and/or PhD degree and be AP or AP/CP board certified and have completed an ACGME accredited Cytopathology fellowship leading to board certification. Candidates will provide the full range of cytopathology expertise, including performance of fine needle aspiration. The academic appointment will be at a level commensurate with the individual's credentials and accomplishments. The successful candidate must have recognized scholarly achievements including teaching, and established publication record. Applicants should submit a curriculum vitae and a brief description of their academic and leadership accomplishments and career goals. These, with the names of three references, should be sent to:

Philip T. Valente, M.D.
Professor of Pathology and Obstetrics and Gynecology
University of Texas Health Science Center
Mail Code 7750
7703 Floyd Curl Drive
San Antonio, Texas 78229-3900

The University of Texas Health Science Center at San Antonio is an Equal Employment Opportunity/Affirmative Action Employer including protected veterans and persons with disabilities. All faculty appointments are designated as security sensitive positions.
