

## Neuropathologist

University of Texas Health Science Center at San Antonio

The Department of Pathology School of Medicine at the University of Texas Health Science Center at San Antonio (UTHSCSA) is seeking a MD and or MD/PhD Neuropathologist. The applicant must be board certified or board eligible in Anatomic Pathology and Neuropathology, and certification in clinical pathology is desirable. Clinical responsibilities include intraoperative neurosurgical consultations and interpretation of permanent sections, muscle and nerve biopsies, autopsy brains and neuropathology consultations, including the medical examiner's office. The Department of Pathology trains residents and has fellowships in surgical pathology, cytopathology, Hematopathology, and transfusion medicine. Opportunities for clinical and bench research are available with colleagues in Pathology and in other medical school departments, at the NCI-designated Cancer Treatment and Research Center (CTRC), and at the Greehey Children's Cancer Research Center (GCCRI).

Successful candidates should demonstrate strong organizational and communication skills to include experience practicing in an academic medical center. The academic appointment will be at a level commensurate with the individual's credentials and accomplishments; competence in general surgical pathology is desirable. The successful candidate must have recognized scholarly achievements including teaching, and an established publication record. Applicants should submit a *curriculum vitae* and a brief description of their academic and leadership accomplishments and career goals. These, with the names of three references, should be sent to:

James M. Henry, M.D.  
Professor, Neuropathology  
University of Texas Health Science Center  
Mail Code 7750  
7703 Floyd Curl Drive  
San Antonio, Texas 78229-3900
