

## Renal Pathologist

University of Texas Health Science Center at San Antonio

The Department of Pathology School of Medicine at the University of Texas Health Science Center at San Antonio (UTHSCSA) is seeking a Renal Pathologist with strong diagnostic skills in general pathology. Experience in general surgical pathology, other subspecialty areas; (neuropathology, pulmonary pathology, transplantation pathology or gastrointestinal pathology) is desirable. The Department of Pathology trains residents and has fellowships in surgical pathology, cytopathology, hematopathology, and transfusion medicine. Opportunities for clinical and bench research are available with colleagues in Pathology and in other medical school departments, at the NCI-designated Cancer Treatment and Research Center (CTRC), and at the Greehey Children's Cancer Research Center (GCCRI).

The successful candidate must have a MD and/or PhD degree and be certified by the American Board of Pathology in Anatomic or Anatomic and Clinical Pathology. The academic appointment will be at a level commensurate with the individual's credentials and accomplishments. The successful candidate must have recognized scholarly achievements including teaching, and established publication record. Applicants should submit a curriculum vitae and a brief description of their academic and leadership accomplishments and career goals. These, with the names of three references, should be sent to:

University of Texas Health Science Center  
Mail Code 7750  
7703 Floyd Curl Drive
