Course Id:	5
Title :	Orthopedic Pathology
Course Keywords:	Topic represented by keywords or phrases
Department :	Pathology
Instructor :	Jaishree Jagirdar
Course Number :	1
Course Name :	Pathology
Author :	Name of author primarily responsible for making content of resource.
Contributor - Other :	Name of person responsible for making significant contribution to the content of the resource.
Description - Abstract - an account of the content:	This is an example of an unusual case of synovial sarcoma involving the lung
Description - Comment :	
Table of Contents :	1. Clinical history. 2. Gross pictures 3. Microscopic pictures
Education Level- i.e. 1st Year Medical Student:	2nd Year Medical Students
Contact E-mail :	jagirdar@uthscsa.edu
Institution- i.e. UTHSCSA:	Educational institution(s) with which author is affiliated.
School- i.e. Medical School:	School(s) within educational institution with which author is affiliated.
Department-i.e. Pathology :	Department(s) within educational institution with which author is affiliated.
Division-i.e.:	Anatomic Pathology
Educational Difficulty-i.e.:	Advanced
Ed. Interactivity Level :	Advanced
Ed. Interactivity Type:	Laboratory Group Activity
Typical Learning Time:	2 hrs.
Date Created --- (i.e. yyyy-mm-dd):	Date when learning object is created.
Date Available --- (i.e. yyyy-mm-dd) or TBD:	Date or date range resource became available.
Date Digital --- (i.e. yyyy-mm-dd) or IIA:	Date current object/asset was digitized.
Date Issued ---- (i.e. yyyy-mm-dd) or TBD:	Date of formal issuance of the resource.
Date Modified ---- (i.e. yyyy-mm-dd) or IIA:	Date of last revision of resource.
Peer Review Comments(Peer Review Members Only):	
Peer Review Status (Peer Review Members Only):	
Data Group- Assigned by Emily Iverson:	guest
System Administrator- Emily Iverson 567-0484:	2010-01-22

Lessons/Descriptive Fields Details

[Lessons/Descriptive Fields List](#) | [Add New Patient Data Object/Case](#) | [Add Existing Patient Data Object/Case](#) | [Assign To New Cour](#)

Lesson Id:	28
Lesson Title:	soft tissue
Lesson - Subtitle:	
Lesson Comment - Description:	
Lesson Author:	Dr. Kristin fiebelkorn
Lesson Keywords:	synovial sarcoma; soft tissue
Lesson - Contributor:	Dr. Kaminski
Lesson Notes:	Ref. 27 should be read brfore starting the lesson
Lesson Format-i.e. PowerPoint-Flash-Word Doc, etc.:	powerpoint; virtual slide
Instructional Method-i.e.Case Study:	case study
Status:	Draft
Access Rights:	Information about who can access the resource or an indication of its security status.
License Rights: See Creative Commons Docx. below:	
Rights Holder-Owner-Name of Person/Organization :	Aperson or organization owning or managing rights over the resource.
Publisher-Entity Making Resource Available:	An entity responsible for making the resource availalbe.
Relation Has Part (Assigned by Sys. Administrator):	Describe relationship of a parent LO to a child LO in the same course.
Relation Is Part Of (Assigned by Sys. Admin.):	Describe the relationship of a child LO to a parent LO in the same course.
Relation URI (Assigned by System Administrator):	A reference to a related resource - data is a URL address.
Data Group (Assigned by System Administrator):	guest

▣ Patient Data Object/Case Details

Id:	54
Accession Number:	<input type="text"/>
Patient Name:	<input type="text"/>
Body Site:	Lung
Cellular Level:	organ system
History:	41 yo F w/RLL mass for lobectomy
Diagnosis:	Synovial Sarcoma probably metastatic to the lung with cystic degeneration
Comment:	<input type="text"/>
Attached Document Format Description:	Virtual Glass Slide
Keywords:	<input type="text"/>
Comments:	<input type="text"/>
MeSH Browser:	<input type="text"/>
Description:	<input type="text"/>
sample:	<input type="text"/>
School:	Biomedical Sciences
Department:	Pathology
Date Accessioned (example 2010-09-01):	<input type="text"/>
Hospital:	<input type="text"/>
Medical Record #:	00382989
Submitted By:	<input type="text"/>
Status:	<input type="text"/>

Digital Slides/Assets Details

[< Previous Digital Slides/Assets](#) | [Digital Slides/Assets List](#) | [Assign To New Patient Data Object/Case](#) | [Assign To Existing Patient Data Object/Case](#)

Slide ID:	131
AccessionNo i.e. s10 5249 A3 Yanez, Yolanda:	<input type="text"/>
Hospital:	<input type="text"/>
Body Site:	<input type="text"/>
Anatomy:	lung
Age:	46
Gender:	F
Diagnosis:	synovial sarcoma
History - i.e. 46 yo F and brief history:	46 year old female patient with ankle pain and incidental large cystic lesion in the lung
Keywords:	<input type="text"/>
Media Type-i.e.CT Scan, JPEG,X-Ray,etc.:	<input type="text"/>
Source Dimensions-i.e. 263,762 KB, 1.54 MB, etc.:	<input type="text"/>
Comment:	de-identified
Scan Date:	<input type="text"/>
